

REPLIES TO THE PRE BID QUERIES
TENDER DOCUMENT NO. IGL/ET2/CP/CM18469
HIRING OF CONSULTANT FOR EPC BID PROCESSING MANAGEMENT AND PMC SERVICES
FOR SUPPLY, INSTALLATION, COMMISSIONING AND REGISTRATION OF SOLAR PLANTS ON AGRICULTURAL LANDS IN DELHI REGION

S. No.	Section & Clause No.	Existing Clause	Queries	IGL Replies
1	Section I, Clause 12.0 General - 12.1 (page no.13)	IGL reserves the right to place the order for part quantity.	The offer will be submitted considering 2*10 MW Solar Plant then how will IGL place order for part quantity? Please clarify.	The referred clause is generic clause under IFB section of the Tender. Please refer to Clause 11 of the SCC regarding deliverables and the payment schedule, which supersedes all related clauses of the Tender.
2	12.3	IGL reserves the right to split the total scope of work among more than one bidder	How will IGL split when single rate has been asked to quote? Please clarify.	The referred clause is generic clause under IFB section of the Tender. Split of award is not applicable and only one consultant is required for the complete scope. Pl refer the Clause 8 of IFB under Tender.
3	12.4	Purchaser (IGL) reserves the right to increase or decrease the scope of work of bidders before or after award of work.	Any increase in scope of work which requires extra duties should be paid extra. Please confirm.	The referred clause is generic clause under IFB section of the Tender. Please refer to Clause 11 of the SCC regarding deliverables and the payment schedule, which supersedes all related clauses of the Tender.
4	Refer clause no 3, Phase-3, Page No-7 & 8	If EPC work is delayed by EPC Contractor/Developer beyond the time period 380 days	then Additional fees shall be calculated on Pro-Rata Basis for Additional time for PMC.	Deliverables and the payment schedule will be as per Clause 11 of the SCC. In case of delay by EPC, no additional charges is payable. The contract shall be valid for Three (03) years from the date of award, Pl refer the Clause 7.0 (DURATION OF CONTRACT / TIMELINES & DELIVERABLES) under SCC.
5	-	Since 10 MW plants are proposed in each discom area and max sites are 3 in each Discom	then the number of generators would be maximum 3 nos in each discom.	In order to avoid multiple nos. of Solar Plants, quantities of Solar power generating Plants restricted to maximum Three (03) nos. in each discom.
