IGL Bhawan, 4, Community Center,  
Sector-9, R.K. Puram, New Delhi - 110022

**TENDER NO. IGL/ET2/CP/CP18393**  
**PROCUREMENT OF SQUEEZE OFF TOOLS**

**REPLIES TO BIDDERS' QUERIES - 1**

Sr. No.	Tender Section & Clause No.	Clause Description	Bidder's Query	IGL's Reply
1	IFB, Page 7 of 86	We want to confirm if this is a Tender or ARC. To us tender implies that all the mentioned quantity will be taken in one go at different locations & is not like an Annual Rate Contract without quantity commitment.	This condition has significant impact on pricing. Hence please specify so that best prices can be quoted. We expect that since the Field trials are done so quality will be ascertained & further if the supplier products have been used earlier by IGL then all the quantity should be taken in one go as the prices would be cheaper. Making the supplies in parts or non-committment of quantity will certainly increase the price.	It is a tender for annual rate contract for procurement of Squeeze off tools. The entire quantity of squeezers (312 nos manual squeezers and 102 nos hydraulic squeezers) shall be delivered in one single lot. The squeezers shall be delivered within 12 weeks from the date of award of PO/LOI whichever is earlier.
2	GCC, Warranty Clause 20.2, Page 37 of 86	Warranty Period to be 12 months from date of receipt at IGL Store.	Since this is a supply tender & no commissioning is involved hence the warranty should be 12 months from the date of supply. IGL can start the use of Squeezers right from day of receipt at stores or check them. In the event the warranty clause of 18 month, we have no provision to know that when the squeezer has been first used.	The warranty period shall be 18 months from the date of supply of the squeezers at IGL store.
3	GCC, Warranty Clause 20.6, Page 37 of 86	GCC Warranty/ Guarantee Clause 20.6 states that the warranty will further extend to 12/18 months after repairs done during the warranty period of 12/18 months	The industry practice for warranty is 12 months & during that period if anything happens it will be repaired or replaced, if found beyond repairs. If this warranty extension on repair is applied then the vendor would fall in an infinite loop of warranty, though practically impossible. This is certainly not practiced in any of the industry even the Gas Industry worldwide & hence the warranty in this case should be made as 12 months from the date of supply.	The first 18 months after the supply of squeezers shall be considered as the overall warranty period irrespective of the number of warranty claims.
4	GCC Clause 57, Repeat Order, Page 49 of 86	Repeat Order Time Frame	We understand that the repeat order can be placed within 6 months of placement of first Lol/PO & also the 50% order value will include GST.	Yes, Your Understanding is correct. Max. 50% of order shall be ordered again as per IGL requisition.
5	SCC, Clause 15.0, Testing of Equipment, Page 55 of 86	When do we need to submit the Sample for field trial to IGL? Where does it need to be submitted in Delhi?	We understand that after the Bidder qualifies in Technical bid, IGL will ask the technically qualified bidders to submit the samples. We would like to understand where the sample needs to be submitted in Delhi.	The location for sample submission and demonstration will be within Delhi-NCR, details of which shall be communicated separately to all BEC qualified bidders.
6	SCC, Clause 16.0, Penalty, Page 55 of 86	The number of days to be increased to 40 days from date of intimation	Since the Hydraulic Squeezers are heavy & sites like Ajmer & Fatehpur are far hence the time period of 21 days, which includes transportation time, is not sufficient to get the Squeezer back from site, repair & again transport it to site. Hence we request to increase number of days from 21 to 40, after which the penalty can start.	Tender condition prevails.
7	PTS Clause 2.0, Size Range, Page 63 of 86	Manual Squeezer Squeeze off stops for Pipe Size 20-63, Hydraulic Squeezer Squeeze off stops for Pipe Size 63-180	We understand that IGL has laid some odd size pipes long back in initial years & hence does IGL require buffer stops having size 25mm, 110mm etc in squeezers? Generally, Manual Squeezer 20 to 63 would have stops of size 20,25,32,40,50 & 63. Similarly Hydraulic Squeezer will have stops of size 63,75,90,110,125,140,160 & 180. This may help IGL in the event of discovery of odd size underground pipe in future.	Yes, It is desirable but not mandatory to have stops for 25 mm, 90 mm and 110 mm as well.
8	PTS Clause 3.0, IGL Stores Address, Page 63 of 86	Please provide the complete address of IGL stores with pin code for all 6 locations.	This will enable us to calculate the Freight charges & quote suitably.	Please find attached the list of stores where squeeze off tools to be delivered as Annexure-A
9		Deadline for Submission	Kindly please extend the deadline for tender till 29 August 2025.	Tender condition prevails.

## **IGL Stores Address & GST Details**

### **MUNDKA STORE (DELHI)**

IGL STORE, MUNDKA  
KHASRA NO.36/12/1&2,  
OPPOSITE LANE NO.7, MUNDKA INDUSTRIAL AREA  
VILLAGE - MUNDKA, NEW DELHI-110041
