1	V	Scope of Work	64	DATASHEET FOR SSV	<p>With reference to the above tender ,requirement specifying that the Slam Shut-Off Valve shall comply with EN 14382, along with mandatory certification under PED 2014/68/EU,</p> <p>In this connection we would like to submit our following request for your kind consideration:</p> <p>Our offered Slam Shut-Off Valves are designed, manufactured, and tested in full compliance with the functional and performance requirements of EN 14382 standards. These slams shut off valves have been successfully supplied and are in operation across multiple City Gas Distribution (CGD) networks., performing reliably under similar operating conditions.</p> <p>We would like to highlight that, for applications within India, PED (Pressure Equipment Directive 2014/68/EU) certification is generally not mandated, and a large number of installations are operating satisfactorily without the same. In PNGRB Technical Standards and Specifications including Safety Standards for City or Local Natural Gas Distribution Networks. For slam shut off valves reference standard mentioned as EN14382 only. (refer page no 61 of attached T4S).</p> <p>Our products undergo stringent in-house testing, including Pressure Tightness, Strength, Functional Performance, and Endurance tests, as per applicable standards.</p> <p>The Past track records (PTR) for the offered models can be submitted for your technical evaluation. In view of the above, we kindly request you to consider acceptance of our Slam Shut-Off Valves based on compliance with EN standards and satisfactory past track records (PTR), even in the absence of PED certification.</p> <p>We assure you of the quality, safety, and reliability of our products and remain committed to meeting your project requirements.</p> <p>We look forward to your favourable consideration.</p>	<p><b>TENDER condition prevails</b></p> <p>The supplied SSV should comply both standards - Pressure Equipment Directive: PED-2014/68/EU and EN 1438</p>
